Live Financially Fit for Life

Learn — to save more

Only a few more dollars per month can add up to big retirement savings over time.

Visualize — a secure retirement

An indexed annuity can help you build, grow and protect your retirement savings.

Instill — good habits

You insure everything that's significant in your life; why not protect yourself with life insurance.

Enjoy — living well

Turn your retirement plan into a guaranteed¹ income for life!

1 in 4
Americans fear they will
outlive their income²

Fit Guaranteed Income Can Help

Build your retirement savings with a Fixed Indexed Annuity that may offer higher guaranteed lifetime income potential than a traditional fixed annuity to help you realize a Financially Independent Tomorrow.

Choice – FIT Guaranteed Income has a Bonus Guaranteed Lifetime Income Rider³ (Bonus GLIR) to help turn your retirement savings into guaranteed income for life!

Flexibility – You have control of your money. Choose how to allocate your values between multiple crediting options.

Never lose a penny due to a market downturn⁴ – Premiums paid and interest credited are not subject to market risk.

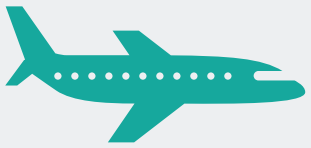

Average life expectancy for someone⁵...

Born in 1900 = 49 years

Born in 1950 = 72 years

Born in 2000 = 80 years

What is a Fixed Indexed Annuity (FIA)?

A fixed indexed annuity uses a formula to calculate interest that considers performance of an underlying index like the S&P 500⁶ or the Russell 2000⁷, without actual participation in the stock market.

Fixed Indexed Annuities Can Provide:

- Tax Deferral
- Guaranteed Accumulation Value
- Guaranteed safety of principal
- Potential for higher interest crediting than traditional fixed annuities
- Lifetime Income through the Bonus Guaranteed Lifetime Income Rider (GLIR).
- Death Benefit Protection

The Power of Tax Deferral

Annuities receive a tax benefit in the form of tax deferral on earnings. This means that the money you invest today won't be taxed until you decide to start taking income in retirement and can help further build your retirement savings.⁸

How Does Interest Crediting Work?

If the index goes up, you get the benefit of upside interest potential, but if the index goes down your principal and interest earned is protected from loss.

Indexed interest accounts calculate interest by formula on an annual basis that uses a Participation Rate and/or Cap that is declared annually in advance at the beginning of each policy year.

The Participation Rate is the percentage of the change of the index used in calculating interest – for example, 50% of the S&P 500. The Cap is the maximum interest that would be credited.

In all methods you can never earn less than zero percent interest. Increases in your interest accounts are locked in every year and you can never lose interest previously credited.

Crediting methods available to you in your FIT Guaranteed Income Annuity include:

Declared Fixed Account

The Declared Interest Account is an interest account for which interest is credited daily at a declared effective annual interest rate. We set the rate in advance each policy year.

Annual Point-to-Point S&P 500® and Russell 2000®

Accounts are interest accounts for which interest is credited based in part on the Annual Index Change in the S&P 500® or Russell 2000® from the Index Value at the beginning of the policy year to the Index Value at the end of the policy year.

Annual Point-to-Daily Average S&P 500®

Interest accounts for which interest is credited based in part on the Annual Index Change in the S&P 500 from the Index Value at the beginning of the policy year to the daily average of the Index Values during the policy year.

Your FIT Guaranteed Income Annuity provides many additional benefits at no additional cost, such as:

- Nursing Care and Terminal Illness Riders (in states where approved) at no additional cost.
- 10% Free Withdrawals in Policy Year 2+

People worry most about outliving money early in retirement but after 10 or more years, health becomes the area of greatest concern.⁹ The Nursing Care and Terminal Illness riders give you peace of mind knowing that in case of a qualifying medical emergency, you can access your money at any time and without paying a surrender charge.

FIT Guaranteed Income Product Specs:

Maximum Issue Age:	35-85
Initial Premium:	Minimum: \$10,000 Maximum: Ages 35-70 - \$1,000,000 Ages 71-75 - \$750,000 Ages 76-80 - \$500,000 Ages 81-85 - \$250,000

GLIR is required and must be elected at issue. Cost: .9% of the Benefit Calculation Base, deducted from the Accumulation Value.

Surrender Charge Schedule:

Policy Year	Rate
1	8%
2	8%
3	7%
4	6%
5	5%
6	4%
7	3%
8	2%
9	1%

Withdrawals in excess of the 10% free withdrawal amount are subject to a market value adjustment (MVA) during the 10 year MVA period. (There is no market value adjustment in California.) Depending on interest rates at the time, the amount withdrawn may be increased or decreased after the surrender charge is applied.

Kick start your

Calculation Base

Retirement savings on your own terms with a Guaranteed Lifetime Income Rider

A FIT Guaranteed Income Fixed Indexed Annuity with the Bonus Guaranteed Lifetime Income Rider can help you turn your savings into retirement income that you can never outlive.

How the Guaranteed Lifetime Income Rider (GLIR) Works

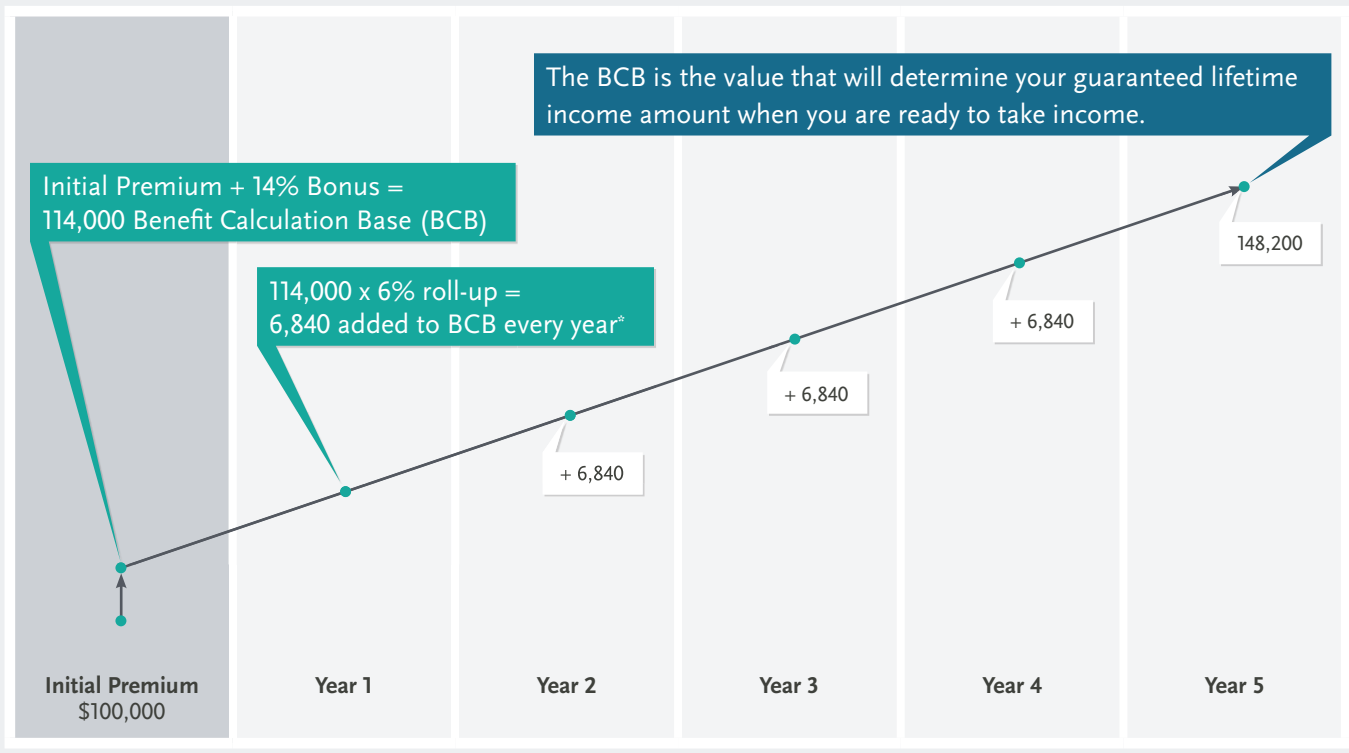

GLIR is calculated off of your Benefit Calculation Base (BCB) and determines how much future lifetime income can be paid. This value is not your accumulation value and can't be withdrawn as it is solely a figure used to calculate income.

The FIT Guaranteed Income features the Bonus GLIR. The rider credits an upfront 14% bonus to the Benefit Calculation Base to kick start the build of the Benefit Calculation Base. In addition to the bonus the Benefit Calculation Base builds at a 6% simple Rollup Rate until the earlier of the election of lifetime income or the 20th policy anniversary.

FIT Guaranteed Income may be right for you if you plan to take income within ten years, and want to maximize the guaranteed growth of your BCB. When activated, you are guaranteed a stream of income for the rest of your life!

How your Benefit Calculation Base (BCB) is calculated

* For the earlier of 20 years or until income is elected.

This example is purely hypothetical and for illustrative purposes only. The example shown above does not represent the actual results of this rider, and your results will likely differ.

Live the full, purposeful and active life you want.

Plan for a financially independent tomorrow with
FIT Guaranteed Income.
